## DETAILED ACTION

### Election/Restriction

Application's election without traverse of Group II (Claims 1-50) in Paper No. 10 is acknowledge.

However, upon reconsideration a new Species has been made for the elected claims as follow:

1. Species to one of the following inventions is required under 35 U. S. C. 121:
  - a) **Species I, e.g. claims 1-32 and 46-50**, drawn to a method of fabricating a magnetic memory cells.
  - b) **Species II, e.g. claims 33-41**, drawn to a method of depositing a metal layer by volatile metal source chemicals and hydrogen-rich plasma.
  - c) **Species III, e.g. claims 42-45**, drawn to a method of manufacturing a magnetic element by depositing an aluminum oxide tunneling dielectric by ALD on the substrate.
2. Applicant is required under 35 U. S. C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claims is finally held to be allowable. Currently, no claim is generic. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently

added. An argument that a claim is all claims are generic is considered non-responsive unless accompanied by an election.

3. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. 1.141. If claims are added after the selection, applicant must indicate which are readable upon the elected species. M.P.E.P. 809.02(a). Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S. C. 103 of the other invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
